

.ETH (Ethereum) names

Who are the .ETH Names registered to and how are they secured?

All .ETH names are initially registered to Internet.bs' own secure wallet. The address of which is "internetbs.eth" (0x8a7Cc7B1B4718C95C8066441A0Df36202f696A26). We retain a record in our database of the correct owner of each name. We store all names on an offline secured wallet, housed in a secure location providing the utmost security.
